Dream your life and live your dream!

Myriam en Jean-Yves travelled across several continents, encountered different cultures but everywhere they went, they met loving people that have respect for all forms of life around them. Diversity is so beautiful and fascinating; we can learn so much from one another!

When visiting his native village in Cameroon, Jean-Yves met up with old friends. Most of them had never left their village and never got the chance to learn how to read and write. If things doesn't change, the same will be true for their children. So we quickly came to a decision: we have to do something about this situation. After a few setbacks, we now are able to claim a plot of land to built a school, after realising a waterwell and a dispensary.

With this hand-on approach we could really feel that we were making a difference in people's lives.

By having respect for life, no matter in what shape or form, we gain peace and solidarity.
Let's stop always striving for MORE but let's aspire to having ENOUGH to be happy.

By sharing our resources, everyone on this beautiful planet can live comfortably and humanely.
If we all look at our own lives, and start the change, this world could be a paradise for everyone!

We don't want to just talk about change! We want to do something to make a change!

irie International Non Profit Organisation .

Together we can
put changes in
motion!!!.
